

PARTICIPANTES

</

The figure is a large Gantt chart used for project management, spanning 100 days. It is divided into three main sections: 'PARTICIPANTES' (Participants) on the left, 'RESUMEN DE ACTUACIONES' (Summary of Actions) in the middle, and 'RESUMEN DE ACTUACIONES' (Summary of Actions) on the right. The chart uses a color-coded system: green for 'ACTIVIDADES' (Activities), yellow for 'RECURSOS' (Resources), and red for 'OBRAS' (Works). The chart shows a complex schedule with many overlapping tasks and resource allocations. The right side of the chart is a summary of the actions, showing the total duration of each activity and the total resources used. The chart is a detailed project management tool for tracking progress and resource allocation over time.
